stairlift
perfect for any staircase*

Bison 80 Curved Stairlift

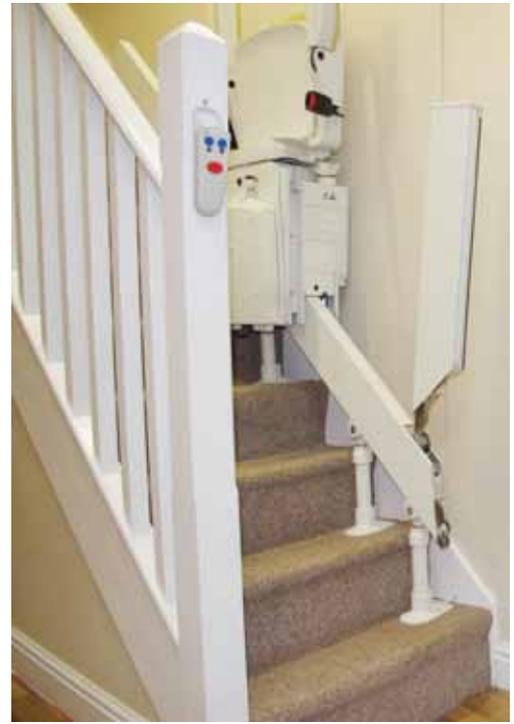

Slimline Profile

The arms, seat and foot rest can all be folded up against the wall allowing easy access to the staircase.

Extra Comfort

The padded seat and back rest ensures that the Bison 80 curved stairlift gives the most comfortable ride. The seat height can also be adjusted

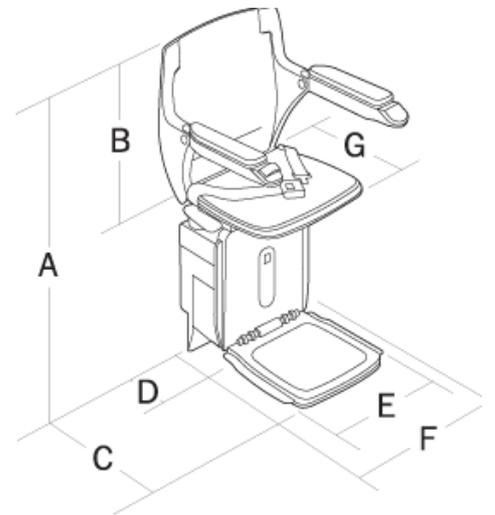

Hinge System

The hinge track is an additional extra when required. It's needed when a doorway or an obstruction is near the bottom of the stairs

Dimensions

	mm	inch
A Overall height	950-1010	37.5-40
B Height of seat	635	25

Independence made easy

The Bison 80 curved stairlift is our most popular solution for curved staircases.

It is a purpose built stairlift for stairs that turn around a bend or corner to reach the landing. Designed and manufactured in Britain, the Bison runs on an slimline highly durable modular rail which is bespoke to the exact specification of your staircase. It's a versatile stairlift which is able to tackle any staircase configuration from simple 90° bends to multiple 180° turns.

The Bison 80 curved stairlift also offers super comfort, featuring comfortable upholstery, smooth stop and start function, easy to use controls and near silent operation, all as standard.

Safety Sensors

Safety sensors are located along the carriage and around the edges of the foot rest. They will automatically stop the lift if an obstruction occurs whilst travelling along the stairs.

Safety Belt

The retractable safety belt can be used for added security whilst travelling along the stairs.

Comfort and Convenience

Wireless Remotes

Wireless remote controls enable the user to call and send the stairlift up or down the staircase.

Swivel Lever

The swivel lever either side of the stairlift enables the user to swivel the chair at the top of the stairs

Easy Controls

Easy to operate, even by those with limited dexterity. Simply hold in the direction you want to travel

Modular Curved Rail

The rail can be fitted on to any curved staircase and it's slim, attractive rail attaches directly to your stairs, so there's no damage to your home. The modular rail track is easily assembled and this enables faster delivery and installation.
