

 Unicorn **Stairlifts Ltd**

*a  
reliable, British built  
straight stairlift.  
Suitable for a variety of staircases*

**Brooks Lincoln Stairlift**

## Extra Comfort <sup>^</sup>

The seat and back rest are padded offering extra comfort along the stairs. The chair features an vinyl material which allows it to be wipe cleaned easily.

## Foot Rest <sup>^</sup>

The foot rest offers comfort and safety whilst travelling along the stairs. It also offers a safe platform for getting off the stairlift at the top and bottom. Power assisted foot rest is also available.

## Hinge Track <sup>^</sup>

The hinge track system is only required when an obstruction such as a doorway is near the bottom of the stairs. The hinge allows you to get off safely and can be folded out of the way once off the stairlift.

# Slimmest Straight Stairlift

The Brooks Lincoln stairlift is a popular solution for straight staircases due to it's modern slimline design.

Designed and manufactured in Britain, the Brooks Lincoln stairlift is built by one of the very original stairlift manufacturers and is renowned for it's reliability and high quality design.

Featuring a slimline profile throughout, the Brooks Lincoln Stairlift carriage and rail are the slimmest on the market.

The carriage runs on a highly durable rail which is suitable for a variety of staircases including steep, narrow and long runs.

The Brooks Lincoln stairlift also offers super ride quality, featuring comfortable upholstery, a smooth stop and start function, easy to use controls and near silent operation - all as standard.

## < Safety Sensors

Safety sensors are located along the carriage sides and around the edges of the foot rest. They will automatically stop the lift if an obstruction occurs whilst travelling along the stairs.

## Safety Belt >

The safety belt can be used for added security whilst travelling along the stairs. It fits comfortably around the waist and retracts neatly away once you have finished using it.

# Express Delivery Available

## Slimline Profile >

The arms, seat and foot rest can all be folded upwards allowing easy access on to the staircase. When folded the Brooks Lincoln measures at only 11" in depth.

## Arm and Remote Controls ^

The arm controls are easy to operate, even by those with limited dexterity. Simply hold in the direction you require to travel. The remote controls enable the user to call and send the stairlift.

## Swivel Lever ^

The swivel lever is located in easy reach on either side of the chair. When pushed downwards it unlocks the swivelling mechanism.

## Swivel Seat >

The swivel seat enables easy access to the landing area. Once swivelled, the seat locks in place allowing you to get out of the chair securely.

**Power Swivel** upgrade also available
